

# Lowcountry Food Initiative

Do you know **children who are hungry** in the summer or don't eat quality meals after they leave school for the day?

Are you passionate about feeding **local, South Carolina food** to Lowcountry children?

If so, join us April 15 as federal, state and community partners come together to discuss providing **summertime and afterschool meals** to children in the Lowcountry. **Experts and community members** will discuss current programs and share information about providing affordable and **healthy snacks and meals for children** when they are not at school.

Contact Mary Young (803)898-0958 for details.

**When: April 15th, 2016, 1 to 4 p.m.**

**Where: Brandt Building Auditorium  
398 Barnwell Hwy, Allendale, SC 29810**

The USDA is an equal opportunity provider.
